a. **UN Women Terms of Reference**

1. Introduction

UN Women, grounded in the vision of equality enshrined in the Charter of the United Nations, works for the elimination of discrimination against women and girls; the empowerment of women; and the achievement of equality between women and men as partners and beneficiaries of development, human rights, humanitarian action and peace and security. UN Women Jordan Country Office supports the Government of Jordan to implement global norms and standards on gender equality and women's empowerment; promotes women's economic empowerment; and implements a resilience and empowerment model for Syrian refugee women and vulnerable Jordanian women. This support is anchored in the UN Sustainable Development Framework (2018-2022) and contributes to the Sustainable Development Goals (SDG), particularly SDG 5 on gender equality and SDG 8 on decent work. UN Women has also supported the Government in key national policies and programmes, including Jordan 2025 – A National Vision and Strategy which aims to achieve balanced growth through a more diverse and competitive economic system and strengthening the role of women in political, economic, and social spheres.

At the policy level, UN Women has assisted the government in mainstreaming gender in its policies and the budgetary allocations for activities promoting gender equality. At the institutional level, UN Women has led upstream initiatives helping increase women's political participation and representation in parliament and municipal governments as well as downstream ones increasing access to life-saving protection services for sexual and gender-based violence survivors. At the social and individual level, there have been many successes in skills development, entrepreneurship training and employment, helping women earn an income, rise out of poverty, and challenge patriarchal norms.

Such initiatives have shown strong results; however, significant challenges remain. Despite high levels of education and achievement amongst women, major constraints remain on their productive participation in the public sphere. Intertwined barriers, lack of: decent work opportunities, provision of childcare, reliable transportation, information, social and employment mediation services such as access to training, and GBV redressal and prevention. In addition, there is an abundance of deeply rooted harmful social norms which continue to hinder women's full socio-economic empowerment. These factors converge to create a situation where female labour force participation is chronically low in Jordan, standing at 14% in 2020. The COVID-19 outbreak and resulting government measures to contain the spread of the disease had significant economic consequences, with a disproportional impact on women. These challenges are strongly reflected into the daily public narrative about gender roles and women's participation in the public sphere. This narrative as well can be found in abundance in media outlets. Therefore, it is imperative to engage in a holistic approach that addresses all the cross-cutting challenges to women's economic empowerment, at both national and local levels, to promote significant and transformative change towards gender equality that can be reflected into the daily reality of women in Jordan.

UN Women recognises that interventions on livelihoods and women's economic empowerment require a supportive environment to be more successful and sustainable; therefore, there is great value in working with the media to promote more gender-responsive reporting on the role and impact of women and work and their right for equal access to socio-economic opportunities in the household and communities. The significant role of the media in influencing opinions shaping important discourse that affect societies is irrefutable, with the ability to reach a large number of people to challenge the harmful stereotypes about women. The wide influence of traditional and new media platforms can initiate the debate and influence change social norms around women and work.

In light of the above, and as part of the project "*Promoting Women's Productive Participation in the Public Sphere – Triple P (Productive, Participation, Public)*" UN Women, aims to build the capacity of reporters and media professionals on gender responsive reporting on women and work and GBV in the socio-economic spheres. The project will work with a selected group of media professionals both to change the way women and work are portrayed in the media, as well as issues such as gender-based violence, and use media channels to communicate positive stories.

2. Description of required services/results:

UN Women Jordan Country Office welcomes proposals for partnerships to achieve results under the following outcome/output areas:

Output 1.1: A cohort of media partners to report on positive stories on women's participation in the labour market

Key activities to include:

- Identify media professionals including editors, journalists, reporters, anchors, creative directors, graphic designers, marketing directors working in different media channels across newspapers, magazines, blogs, billboards, radio stations, television stations, and in marketing and advertising in both traditional and new media, from both national and local outlets, as well as public and private outlets.
- Establish three cohorts from the identified media professionals including, i) junior media professionals; and ii) editors in chief/senior media professionals; (iii) marketing and advertising professionals. The selected professionals should cover topics related to gender, economics, or the labour market. Criteria to be determined with UN Women.
- Develop a curriculum and capacity development plan on gender responsive reporting in the different media channels with a focus on at least two key components: (i) gender sensitive reporting and language; (ii) women in the labour force: key challenges and opportunities, including how to report issues related to policy reform, harassment and gender based violence in the workplace, social norms and attitudes towards women at work, key enablers and, women's role in the socio-economic sphere. Curriculum to be developed in partnership with UN Women and gender and media experts.
- Based on the capacity development plan, undertake training sessions with the three cohorts, with at least 50 media professionals (50% women and 50% men.)
- Organise networking spaces for media professionals, including providing a platform for champions to share their experience and best practices.
- Convene regular knowledge exchange meetings for cohort members;
- Support media professionals to broadcast and publish at least 10 gender responsive stories about women in alignment with the training's content that includes exposure visits, especially at the governorate level.

Institutional Arrangement

The selected organization(s) will sign a Project Cooperation Agreement (PCA) with UN Women. A competitive selection process will take place to identify the potential partners. The organization will be selected only if it has proven capacity to deliver the proposed outputs/activities. The organization's capacity will be assessed by UN Women as per UN Women's policy and procedures.

Reporting

The selected partner will work closely with UN Women during programme implementation and will provide quarterly narrative and financial reports in line with UN Women guidelines and requirements.

3. **Timeframe:** 1 Jun – 30 September 2021

4. **Competencies:**

In the selection of partners, the following competencies will be considered:

- a) Soundness of technical competency described in the approach to the outcome/outputs as described in the Terms of Reference for the Call for Proposals.

10.3 Regardless of the currency of proposals received, the contract will always be issued and subsequent payments will be made in the mandatory currency for the proposal above.

11. Evaluation of technical and financial proposal

11.1 PHASE I – TECHNICAL PROPOSAL (70 points)

11.1.1 Only proponents meeting the mandatory criteria will advance to the technical evaluation in which a maximum possible 70 points may be determined. Technical evaluators who are members of an Evaluation Committee appointed by UNWOMEN will carry out the technical evaluation applying the evaluation criteria and point ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative technical score of 50 points.

1	Proposal is compliant with the Call for Proposal (CfP) requirements	15 points
2	The Organization’s mandate is relevant to the work to be undertaken in the TORs (component 1)	20 points
3	The Proposal demonstrates a sound understanding of the requirements of the TOR and indicates that the organization has the prerequisite capacity to undertake the work successfully (components 2, 3 and 4)	35 points
	TOTAL	70 points

11.2 PHASE II - FINANCIAL PROPOSAL (30 points)

Financial proposals will be evaluated following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents’ prices to that of the lowest evaluated cost.

Formula for computing points:

Points = (A/B) Financial Points

Example: Proponent A’s price is the lowest at \$10.00. Proponent A receives 30 points. Proponent B’s price is \$20.00. Proponent B receives $(\$10.00/\$20.00) \times 30$ points = 15 points

12. Preparation of proposal

12.1 You are expected to examine all terms and instructions included in the CFP documents.

Failure to provide all requested information will be at proponent’s own risk and may result in rejection of proponent’s proposal.

12.2 Proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that proponent understands and confirms acceptance of UNWOMEN stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” and “contractor” refer to those organizations that submit a proposal pursuant to this CFP.

- 12.3 Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive.
- 12.4 The terms of reference in this document provides a general overview of the current operation. If the proponent wishes to propose alternatives or equivalents, the proponent must demonstrate that any such proposed change is equivalent or superior to UNWOMEN established requirements. Acceptance of such changes is at the sole discretion of UNWOMEN.
- 12.5 Proposals must offer services for the total requirement, unless otherwise permitted in the CFP document. Proposals offering only part of the services may be rejected unless permitted otherwise in the CFP document.
- 12.6 Proponent’s proposal shall include all of the following labelled annexes:

13. CFP submission (on or before proposal due date):

As a minimum, proponents shall complete and return the below listed documents (Annexes to this CFP) **as an integral part of their proposal**. Proponents may add additional documentation to their proposals as they deem appropriate.

Failure to complete and return the below listed documents as part of the proposal may result in proposal rejection.

Part of proposal	Annex B-1 Mandatory requirements/pre-qualification criteria
Part of proposal	Annex B-2 Template for proposal submission
Part of proposal	Annex B-3 Format of resume for proposed staff
Part of proposal	Annex B-4 Capacity Assessment minimum Documents

13. If after assessing this opportunity you have made the determination not to submit your proposal, we would appreciate it if you could return this form indicating your reasons for non-participation.

14 Format and signing of proposal

13.1 The proposal shall be typed or written in indelible ink and shall be signed by the proponent or a person or persons duly authorized to bind the proponent to the contract. The latter authorization shall be indicated by written power-of-attorney accompanying the proposal.

13.2. A proposal shall contain no interlineations, erasures, or overwriting except as necessary to correct errors made by the proponent, in which case such corrections shall be initialled by the person or persons signing the proposal.

15 Award

15.1 Award will be made to the responsible and responsive proponent with the highest evaluated proposal following negotiation of an acceptable contract. UNWOMEN reserves the right to conduct negotiations with the proponent regarding the contents of their proposal. The award will be in effect only after acceptance by the selected proponent of the terms and conditions and the terms of reference. **The agreement will reflect the name of the proponent whose financials were provided in response to this CFP.** Upon execution of agreement UNWOMEN will promptly notify the unsuccessful proponents.

15.2 The selected proponent is expected to commence providing services as of the date and time stipulated in this CFP.

15.3 The award will be for an agreement with an original term of 6 months with the option to renew under the same terms and conditions for an additional period or periods as indicated by UNWOMEN.

Annex B-2 Template for proposal submission

Call for proposal
Description of Services:
CFP/JOR/2021/1

Mandatory requirements/pre-qualification criteria

Proponents are requested to complete this form (Annex B-2) and return it as part of their submission. Proponents must meet all mandatory requirements/pre-qualification criteria as set out in **Annex B-1**. Proponents will receive a pass/fail rating on this section. To be considered, proponents must meet all the mandatory criteria described in Annex B-1. UN WOMEN reserves the right to verify any information contained in proponent's response or to request additional information after the proposal is received. Incomplete or inadequate responses, lack of response or misrepresentation in responding to any questions will result in disqualification.

Component 1: Organizational Background and Capacity to implement activities to achieve planned results (max 1.5 pages)

This section should provide an overview with relevant annexes that clearly demonstrate that the proposing organization has the capacity and commitment to implement successfully the proposed activities and produce results. Key elements to be covered in this section include:

1. Nature of the proposing organization – Is it a community-based organization, national or sub-national NGO, research or training institution, etc.?
2. Overall mission, purpose, and core programmes/services of the organization
3. Target population groups (women, indigenous peoples, youth, etc.)
4. Organizational approach (philosophy) - how does the organization deliver its projects, e.g., gender-sensitive, rights-based, etc.
5. Length of existence and relevant experience
6. Overview of organizational capacity relevant to the proposed engagement with UN Women (e.g., technical, governance and management, and financial and administrative management)

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women TOR. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the TOR.

2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators which will form the basis for monitoring and evaluation. These indicators will be refined, and will form an important part of the agreement between the proposing organization and UNWOMEN.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component 4.

Component 4: Implementation Plan (max 1.5 pages)

This section is presented in tabular form and can be attached as an Annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include in the Implementation Plan all required milestone reports and monitoring reviews.

Implementation Plan

Project No:		Project Name:	
Name of Proponent Organization:

		Project Start and End Dates:	
Brief Description of Specific Results (e.g., Outputs) with corresponding indicators, baselines and targets. Repeat for each result

1.3													
1.4													

Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for monitoring and evaluating the activities, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- How the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan
- How any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received
- How the participation of community members in the monitoring and evaluation processes will be achieved

Component 5: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology involved fails to work as projected) and external factors (for example, significant currency fluctuations resulting into changes in the economics of the activity). Describe how such risks are to be mitigated.

Include in this section also the key **assumptions** on which the activity plan is based on. In this case, the assumptions are mostly related to external factors (for example, government environmental policy remaining stable) which are anticipated in planning, and on which the feasibility of the activities depend

Component 6: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.

- The budget should be realistic. Find out what planned activities will actually cost, and do not assume that would cost less.
- The budget should include all costs associated with managing and administering the activity or results, particularly include the cost of monitoring and evaluation.
- The budget could include “Support Costs”: those indirect costs that are incurred to operate the Partner as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the Work, i.e., operating expenses, over-head costs and general costs connected to the normal functioning of an organization/business, such as cost for support staff, office space and equipment that are not Direct Costs.
- “Support Cost Rate” means the flat rate at which the Partner will be reimbursed by UN Women for its Support Costs, as set forth in the Partner Project Document and not exceeding a rate of 8% or the rate set forth in the Donor Specific Conditions, if that is lower. The flat rate is calculated on the eligible Direct Costs.
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line item categories, list the item under other costs, and state what the money is to be used for.
- The figures contained in the Budget Sheet should agree with those on the proposal header and text.
